Gas, electric, or manual? Many people who have never used a gasoline engine powered piece of yard equipment are intimidated by all the warnings with respect to the explosive nature of gasoline. A lawn mower engine is quite simple and basic compared to the one fitted to your car, although the principle of operation is the same. Generally, these type of engines are single cylinder and four-stroke (four cycle) and run on gasoline or "gas", which is known as petrol outside of North America.
