Engineering controls, such as ventilation, and good work practices are the preferred methods of minimizing exposures to airborne lead at the worksite. A shooting range, firing range or gun range is a specialized facility designed for firearms qualifications, training or practice. Some shooting ranges are operated by military or law enforcement agencies, though the majority of ranges are privately-owned and cater to recreational shooters. Air Systems. There are many different types of air systems used to deliver the conditioned air to the areas or spaces requiring it. The single and dual duct systems are the two basic types of air duct systems that are used for distribution of conditioned air.
